Executive Director **Jim Gilhooly**
Udston Primary School
Headteacher **Elaine Henry**

4th May 2016

Dear Parents/Carers,

As you know, UWS are returning to school next week to capture information for their Health and Wellbeing Research project.

The university is planning on starting the gathering of updated information from next Monday **next week** and we have outlined a proposed schedule of year groups for your information. **For those children who will be fasting beforehand, the university will be in school from 8.30am therefore if you wanted to come in with your child for the capillary blood sampling, we would ask that you come in anytime from 8.30am on the day outlined for your child's year group. Please do not worry if you are unable to come in with your child, this is an option. Please also remember that your child can withdraw at any point with this too.**

Monday 9th May P1 and P2 pupils 8.30am onwards

Tuesday 10th May P3 pupils from 8.30am onwards

Wednesday 11th May P4 pupils from 8.30am onwards

Thursday 12th May P5 - 7 pupils from 8.30am onwards

Again, the above times are for children who will be fasting before taking part in the capillary blood sampling. The whole process is very quick and the children will then be offered toast and juice immediately afterwards in the dining hall.

Both the university and ourselves have the list of names who are taking part. If your child is not taking part, they will obviously not be included in any part of this project other than participating in PE as normal. In the event of your child not taking part in the blood sampling this time, but had taken part in the first session, please contact the school office as soon as possible

Please do not hesitate to contact us if you have any questions regarding the above.

Yours sincerely

Mrs E Henry
Head Teacher
